## Eyebrow Microblading: General Consent and Procedure Permit

Client's Full Name: \_\_\_\_\_

I hereby authorize Sara Kurpijuweit to perform upon myself permanent cosmetic enhancement. If any unforeseen condition arises during the procedure(s), I further request and authorize her to use her full judgment and do whatever he/ she deems advisable and necessary in the circumstances.

### **I understand that:**

- \*Permanent cosmetic enhancement is an advanced form of tattooing.
- \*The colour, shape and position of the enhancement will be agreed upon during my consultation.
- \*A sensitivity test for pigment does not guarantee that I will not have an allergic response.
- \*Allergic responses to pigment are rare and accept all responsibility if an allergic response occurs.
- \*A sensitivity reaction to anesthetics can occur and accept all responsibility if an allergic response occurs.
- \*Non-toxic pigments are used during the procedure and the cosmetic enhancement achieved may fade over the course of 1-3 years. Even though the colour has faded, the pigment will stay in the skin indefinitely and may leave a light residue of colour.
- \*Dyes, inks and pigments are not approved by the Food and Drug Administration (FDA) and the health effects are not known.
- \*The highest standards of hygiene are met, and that sterile disposable needles are used for each individual client, procedure and visit.

## Continued...

\*Each procedure is a process requiring multiple applications of pigment to achieve desirable results, perfection cannot be guaranteed.

\*I will likely need to return for future touch up procedures that are not included in the initial \$400.00 price. (One touch up is usually required and is \$200.00). A touch up will be performed 1-3 months after the initial procedure. After the 3-month period I will be charged an additional fee for any procedures (example: the annual touch up fees).

\*I understand that the touch up will not be done immediately, no matter the outcome of the procedure. It is booked weeks after the initial application to allow the procedure site to fully heal. I will book the appointment when it is convenient for both parties.

\*The pigment may migrate under the skin; however, this is a rare occurrence. \*Permanent cosmetic enhancement is an invasive procedure and the infusion process can be uncomfortable.

\*Loss of any brow hairs during the healing of permanent cosmetic eye enhancements will result in new brow hair growth over a 4-month period and that brow hair loss is rare and minimal.

\*In rare cases, corneal abrasion can occur during the procedures and I should remain still.

\*The result of the procedure is determined by the following:

- |                           |   |
|---------------------------|---|
| - Medication              | -Skin Characteristics - i.e. dry/oily/sun-damaged |
| - Natural skin undertones | -Alcohol intake and smoking                       |
| - General stress          | -A compromised immune system                      |
| - Poor diet               | -Post procedure care treatment                    |

## Continued...

\*Immediately after the procedure the enhancement can be 30 to 50% darker than the desired result and can take between 4-10 days to lighten. \*The true colour will be visible 1 month after each application, and that the colour may vary according to skin tones, skin type, age and skin conditions. I appreciate that some skins accept colour more readily than others and no guarantee of an exact effect or colour can be given.

\*Upon completion of the procedure there may be swelling and redness of the skin, which will subside within 1-4 days dependent on lifestyle. In some cases, bruising can occur.

\*I can resume normal activities immediately following the procedure, however, using cosmetics, prolonged exposure to water, excessive perspiration and exposure to the sun should be limited for up to two weeks following the infusion process.

\*If I have had a previous eye disorder or eye infection and receive a brow enhancement, the disorder may reoccur again. I agree to use the correct medication to prevent such a disorder reoccurring.

\*Even though my vision is not affected by permanent cosmetic eye enhancements I may wish to have someone drive me home.

\*There are few effective methods for pigment removal. Laser removal has proven successful, however is a process.

\*I will inform my doctor of my permanent cosmetic enhancement if I require an MRI scan within a 3-month period of receiving the procedure.

## Continued...

\*I will follow all pre-procedure and post-procedure instructions as provided and explained to me by the practitioner. I understand that infection and possible scarring can occur if I do not adhere to the said instructions.

To my knowledge I do not have any physical, mental, or medical impairment/ disability that might affect my wellbeing as a direct or indirect result of my decision to have the procedure done at this time. I am at least 18 years old. I am not under the influence of drugs or alcohol. For documentation, I also consent to the taking of "before" and "after" photographs of said procedure(s). If the treatment is discounted on an offer price I give my consent for just the area (no full face) before and after pictures to be used for marketing.

I CERTIFY THAT I HAVE READ, AND HAVE HAD EXPLAINED TO ME, AND FULLY UNDERSTAND THE ABOVE CONSENT FORM AND THAT I HAVE REQUESTED TO HAVE PERMANENT COSMETIC ENHANCEMENT OF MY OWN FREE WILL.
