The PicoWay Resolve is a non-ablative laser and “its main role is to refresh and rejuvenate by building new collagen, helping to smooth the skin [from fine lines/wrinkles/acne scarring] and eliminating some of the pigment that comes from sun damage”.

“Picosecond lasers are a step up, as they go a little deeper and have more of an effect on fine lines, wrinkles, and acne scarring.”

“With a more dizzying pulse duration, picosecond lasers fire 1000 times faster than nano – so fast that the skin doesn’t even register their heat.”

~ Anne Chapas, clinical instructor of dermatology, Mount Sinai Medical Centre

(Edgar, Jolene. “The Complete Guide to Laser Resurfacing Treatments for Your Skin.” Allure. 25th, January, 2019)

ESSENTIALS MEDI SPA

Price List for PicoWay Laser Treatments:

- **PicoWay Resolve for Benign Skin Lesion:**

- *Treatments start at \$100.00 please book a free consultation for a quote of how much the area to be treated will cost.*

- ✓ *96% of treated discolorations showed at least
50% clearance after 2 treatments*

Please check with your family doctor or a specialist if you are concerned the skin lesion may be changing, as it may be a better option to have it surgically removed and sent for pathology. This treatment is for BENIGN skin lesions, which means they are non-concerning/ non-cancerous.

The PicoWay® system delivers high peak power and the shortest pulse durations for a non-thermal, photoacoustic effect that transforms skin from the inside out. With this remarkably innovative picosecond laser, you can treat a wide range of benign skin lesion colours & depths.

PLEASE BOOK A FREE CONSULTATION FIRST (to be sure we set enough time for the appointment). Note: If you are planning on being dark spot free for a special event, we suggest giving yourself 4-6 months for treatment. Why so long? It is hard to determine how many treatments will be required, and you must wait a minimum of 6 weeks in between each session.

- **PicoWay for Tattoo Removal or Lightening for Tattoo Cover-ups:**

- *Treatments start at \$100.00 please book a free consultation for a quote of how much the tattoo to be treated will cost.*

With this remarkably innovative picosecond laser, you can treat a wide range of tattoos. Even difficult-to-treat blue and green tattoos.

It does hurt, we won't lie, but a topical numbing cream is applied for 20 mins before treatment to help make you as comfortable as possible.

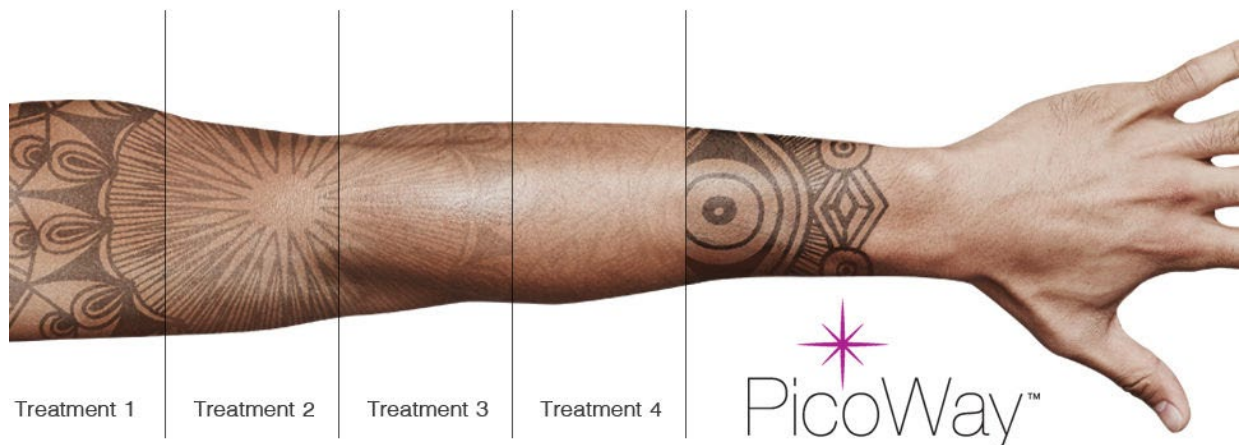

PLEASE BOOK A FREE CONSULTATION FIRST, AS 30 MINS MAY NOT BE LONG ENOUGH DEPENDING ON THE SIZE AND COLORS OF YOUR TATTOO.

ESSENTIALS MEDI SPA

Note: If you are planning on being tattoo free for a special event, we suggest giving yourself a full year for treatment. Why so long? It is hard to determine how many treatments will be required, and you must wait a minimum of 6 weeks in between each session.

*Example: Treatment #1 early January, #2 mid February, #3 end of March, #4 early May,
#5 mid June, #6 end of July*

This is a process that cannot be rushed. We know you live busy lives and may need to reschedule appointments, so please allow a minimum of 7 months-12 months for treatment.

✓ *86% of patients showed at least 50% clearance after 3 treatments*
